WONDERS OF THE WORLD

When the Great Pyramid was built as a tomb for an Egyptian ruler around 2560 BC, it was easily the tallest man-made structure in the world at 481 feet high. Nearly 4,000 years later,

it was **STILL** the world's tallest structure, until the completion of England's Lincoln Cathedral, which reached 525 feet into the sky in 1311. When the Washington Monument became the world's tallest at 555 feet more than 500 years later in 1884, it was still only about 100 feet taller than the Great Pyramid at Giza.

THE GREAT PYRAMID AT GIZA, EGYPT
