~ Dr. Juliet Ashton, Coordinator of Student Services

Dr. Juliet Ashton shared information regarding least restrictive environment and educational placement. She also reviewed special education disability categories and the various programs available to meet student needs. Dr. Ashton shared the current special education programs offered at Warwick. She presented goal areas in relation to future programming needs in the Warwick School District to offer a continuum of services K-12. Dr. Ashton provided a historical perspective of when various special education programs and related services were brought back to the Warwick School District to meet our students' diverse needs. Currently, 93% of students with special needs are being served in Warwick School Districted operated programs and related services. Dr. Ashton proposed bringing back a high school emotional support program starting in the fall of 2022-2023. An additional future goal would be to provide work immersion programs for our students transitioning from school to work. The importance of educating all students in their home community through a continuum of services was stressed.

2. Construction Change Orders
~ Mr. Nathan Wertsch, CFO

Mr. Nate Wertsch shared information regarding logistics related to the Field House Project lead times, design changes, or other changes due to the cost of business, construction supplies, and staying within the project completion dates found to be necessary during the course of the project. A discussion to establish a threshold amount for construction change orders was requested by Mr. Wertsch. Board members would be notified of any change orders throughout the project. Changes falling under the specified amount would not require waiting for additional Board approval prior to taking place and affecting the construction timelines. After a Board discussion, a threshold of \$25,000 will be recommended.
